

CORPORATE EMPLOYEE TRANSPORTATION

Workforce mobility built for every shift.

Safe, secure and reliable employee transportation for corporate organisations across Hyderabad.

SAFE • SECURE • RELIABLE

Execution capacity clients can evaluate.

Sri Dinesh Logistics was established in 2026 to support structured employee transportation with responsive operations, compliant vehicles and professional drivers.

01

Corporate Focus

Employee pickup and drop operations aligned to shift schedules, locations and client requirements.

02

Fleet Options

Sedan and SUV deployment planned around passenger capacity, route conditions and scope.

OPERATING FOOTPRINT

30

ACTIVE VEHICLES

100+

TRIPS COORDINATED PER DAY

24 × 7

OPERATIONS SUPPORT

HYD

CITY-WIDE SERVICE COVERAGE

One accountable partner for daily employee movement.

01

Shift Transportation

Planned login and logout services for recurring workforce schedules, with deployment aligned to agreed routes.

02

Pickup & Drop Coordination

Trip planning based on employee locations, operational priorities, route practicality and shift timings.

03

Package Cab Deployment

Dedicated sedan or SUV packages configured for agreed hours, kilometres and working days.

04

Breakdown Replacement

Responsive replacement coordination helps protect continuity when an assigned vehicle becomes unavailable.

05

Female Shift Support

Escort-enabled trips can be coordinated when the client provides an authorised escort as part of its safety process.

06

Requirement-Based Proposal

Commercials are prepared against shift data, routes, cab count, vehicle mix, start date and compliance scope.

Prepared for corporate onboarding and daily deployment.

30

ACTIVE VEHICLES

Sedan and SUV fleet capability

- Late-model deployment options
- Clean interiors and safety kit
- Uniformed drivers with ID cards
- GPS and panic-button readiness
- 24x7 supervisory coordination

Deployment inputs

The right solution begins with clear operating data.

- ✓ Shift login and logout timings
- ✓ Employee pickup and drop locations
- ✓ Required cab count and vehicle type
- ✓ Working days and expected start date
- ✓ Package hours and kilometre limits
- ✓ Client onboarding checklist
- ✓ Escort and safety requirements
- ✓ Reporting and escalation expectations

Documentation and controls built into readiness.

Vehicle Documents

- ✓ Registration Certificate (RC)
- ✓ Commercial permit
- ✓ Fitness certificate
- ✓ Valid insurance
- ✓ Pollution certificate

Driver Documents

- ✓ Driving licence and badge
- ✓ Aadhaar and PAN
- ✓ Police verification / PCC
- ✓ Medical fitness certificate
- ✓ Address proof and photographs

Vehicle Accessories

- ✓ First-aid medical kit
- ✓ Torch and umbrella
- ✓ Fire extinguisher
- ✓ Radium / safety stickers
- ✓ GPS and panic button

Final onboarding controls are aligned to the client's documented policy and agreed scope.

Clear ownership from requirement to reporting.

01

Discovery

Review shifts, locations, volumes, vehicle mix and start date.

02

Compliance

Prepare driver, vehicle and accessory records for onboarding.

03

Deployment

Assign vehicles, drivers and supervisory ownership.

04

Operations

Coordinate daily trips, escalations and replacement support.

05

Reporting

Share agreed compliance and operating updates with the client.

Operational experience includes workflows coordinated through the RouteMatic ecosystem.

No third-party endorsement is implied. Platform and client requirements remain subject to the relevant engagement.

Built to reduce transport risk for client teams.

01

Safety-led readiness

Documented drivers, compliant vehicles and agreed safety accessories.

02

Responsive continuity

Replacement coordination and dedicated supervisory support.

03

Measurable capacity

30 active vehicles and approximately 100 trips coordinated daily.

04

24x7 availability

Operations support designed around multi-shift corporate environments.

05

Professional presentation

Uniformed drivers, ID cards and clean vehicle standards.

06

Transparent proposals

Commercials structured around shared operating inputs and scope.

REQUEST FOR PROPOSAL

Let's plan reliable transport for your workforce.

Share your shift timings, employee locations, vehicle requirement, working days, expected start date and compliance checklist. We will review the scope and prepare a structured proposal.
